Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	N/A
5	Environment configuration file (.env.example or similar)	Yes
6	Deployed application URL (if hosted)	No
7	APK / Executable binary (if applicable for mobile/desktop apps)	N/A
8	Dockerfile / Containerization config (if applicable)	No
9	Test files and test results	No
10	Demo video or walkthrough (if required)	No

Notes

- The project is a locally run Streamlit application; it has not been deployed to a public URL, so item 6 is marked “No.”
- The project has no database component, so item 4 (database schema / seed files) is marked “N/A.”
- The project is a Python web application, not a mobile or desktop app, so item 7 (APK / executable binary) is marked “N/A.”

- No Dockerfile or containerization config is currently included in the repository, so item 8 is marked “No.”
- A tests/ package is scaffolded in the repository, but it does not yet contain executable test files or recorded test results, so item 9 is marked “No.”
- No demo video or walkthrough is currently included, so item 10 is marked “No.”
